

SPOTLIGHT CPR SYSTEMS

For this spotlight, *Healthcare Informatics* sought further details from the 392 companies that indicated computer-based patient record (CPR) systems as a product offering in our 2002 Resource Guide survey. The 102 companies that responded (by completing the CPR survey on our Web site) are listed below, along with functional components of their systems and specific healthcare markets that they serve.

If you would like to be included in the future and have not filled out our Resource Guide survey, please go to <http://www.healthcare-informatics.com/company-info.htm>.

Company • Product (P=for purchase, L=as a license, A=as an ASP) • Price	Functional Components														Markets Served													
	Administrative/management reporting	Client/server	Clinical documentation	Clinically driven billing	Decision support	Interface engine	IMPI/EMPI	Outcomes management	Patient access	Patient disease registry	Patient education	Physician order entry (prescribing)	Registration eligibility referral	Scheduling	Specialty clinical software	Speech-based capabilities	Supports simultaneous users	Supports wireless capabilities	Touchscreen capabilities	Web based	Web enabled	Workgroup tools & workflow solutions	Ambulatory: <10 physicians	Ambulatory: >10 physicians	Home healthcare	Hospital/acute care: <300 beds	Hospital/acute care: >300 beds	Long-term care
